

Covid-19 in Basic and Clinical NEUROSCIENCE

Covid-19 in Basic and Clinical Neuroscience

Welcome to Basic and Clinical Neuroscience. The COVID-19 pandemic is like a disastrous circumstance and deserves specific attention and consideration. In this situation, Basic and Clinical Neuroscience Journal planned to focus on emergency and pragmatic responses, including to believe a higher priority for the research on neuroscience and COVID-19, a fast track process by the Editor-in-Chief and his team, and to broad the scope of journal for the COVID-19 related subjects that are less basic but their fast visibility is vital for programming services to the patients. Basic and Clinical Neuroscience Journal welcomes all your original, letters, commentaries, reviews, etc. related to the abovementioned subjects and invites all the worldwide eminent scientists to consider this journal for their article and research.

Journal Description

Basic and Clinical Neuroscience is an international multidisciplinary journal that publishes editorials, original full-length research articles, short communications, reviews, methodological papers, commentaries, perspectives and “news and reports” in the broad fields of developmental, molecular, cellular, systems, computational, behavioral, cognitive, and clinical neurosciences. No area in the neural related sciences is excluded from consideration, although priority is given to studies that provide applied insights into the functioning of the nervous system. BCN aims to advance our understanding of organization and function of the nervous system in health and disease, thereby improving the diagnosis and treatment of neural-related disorders.

Reviewing Procedure

Manuscripts submitted to BCN should describe novel results generated by experimental that were guided by clearly defined aims or hypotheses. BCN aims to provide serious ties in interdisciplinary communication, accessibility to a broad readership inside Iran and the region and also in all other international academic sites, effective peer review process, and independence from all possible non-scientific interests. BCN also tries to empower national, regional and international collaborative networks in the field of neuroscience in Iran, Middle East, Central Asia, and North Africa and to be the voice of the Iranian and regional neuroscience community in the world of neuroscientists. In this way, the journal encourages submission of editorials, review papers, commentaries, methodological notes and perspectives that address this scope.
